

## HXCS40 ELASTIC CHINSTRAP

Product Code:

HXCS40

### Chinstraps

The Protector range offers a choice of three EN397 approved chinstraps; elasticated or cotton 2-point chinstraps, suitable for use with the full range of Protector safety helmets or an optional 4-point bifurcated chinstrap can be specified by choosing a CSV helmet version on the Style 600 range where additional holes are drilled in the rear of the helmets shell to provide the increased stability a 4 point chinstrap can provide.

- 2 point Elasticated or Cotton designs
- 4 point bifurcated option
- Provides added stability in windy conditions, at height or driving site machinery
- Easy to connect
